1. In accordance with our recent conversations regarding an inquiry that subject received from [redacted], a Revenue Agent for the Internal Revenue Service, I met [redacted] today and explained to him that the income attributable to "U. S. Government [redacted]" actually came from us. [redacted] happens to have been cleared by us and the fact that he had the return for audit was purely luck. He was entirely satisfied with our explanation and no further inquiry should be received by the Agent. In the event that it is, please inform me immediately.
